## PATTERN TRANSFER PAPER & TRACING STYLUS

Don't forget the transfer paper!

No matter what woodcraft project you choose to make, you'll need transfer paper to trace the lines from our full-size pattern onto your wood using our stylus (below) or a ballpoint pen.

Choose our special formula **transfer paper (T)** or our **graphite paper (G)**. Lines from both papers will not bleed

through your paint. Graphite paper is slightly cleaner and easier to erase. Use white paper for dark colored woods.
